

# Phlebotomy Training Program

Spokane, WA

MultiCare is proud to offer a 10-week Phlebotomy Training Program. This is a paid, benefits eligible program. The trainee will be hired at one of the various lab locations listed in the Inland Northwest Region (Spokane and Spokane Valley). Opportunities are available in inpatient and outpatient settings.

## Compensation & Benefits

- This is a paid trainee program.
- After completion of the program rate of pay will be increased.
- Participants hired into the training program are benefits eligible.

## Program Timeline & Details

- The program is ten weeks long.
- The schedule is Monday through Friday 8 hours a day.
- Participants will apply for the MA-P during the training program.

## Program Requirements

- 18 years of age or older.
- High School Diploma or GED required.

## Employment at MultiCare

If offered a position into the training program, you will be supervised throughout your paid training until you become licensed as an MA-P. Upon completion of the training program, you will have the opportunity to apply for a transfer to a position as a Phlebotomy Lab Aide.
